**RE: Notification per PR Notice 98-10 to make minor label changes, and add graphics**  
**Product: Algy Cop**  
**EPA Reg. No.: 7616-68**  
**Company: KIK Pool Additives Inc.**

Dear Jacqueline:

On behalf of KIK Pool Additives Inc., I am submitting a label notification per PR Notice 98-10 to make minor label changes, and add graphics for Algy Cop, EPA Reg. No. 7616-68.

We are making the following minor label changes including: (changes are highlighted)

- Addition of label claims
- Addition of minor optional language, reader's notes consistent with other approved KIK Pool labels
- Addition of graphics

The following documents are enclosed in support of this notification:

- EPA form 8570-1
- One copy of the revised label (changes are highlighted)

If you have questions, please contact me at 301-680-7971 or [cgriffin@delta-ac.com](mailto:cgriffin@delta-ac.com).

Sincerely,

Cristina Griffin  
Agent for KIK Pool Additives Inc.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Algy Cop [This product] does an effective job of controlling green, blue-green and mustard colored algae growth in swimming pools. [For black algae problems, the use of KEM TEK BLACK ALGAE TREATMENT is recommended.] Follow all precautions, directions and restrictions per their labeling for all pesticide products being used.

- 1) Adjust pH of pool water to 7.2-7.6. Use KEM TEK pH PLUS (soda ash) to raise pH and KEM TEK MURIATIC ACID [or muriatic acid] to lower it. Follow the instructions on the [label] [back panel] of whichever product is used.
- 2) Add [1 pound of KEM TEK SHOCK QUICK] [[or other EPA approved shock product] [, [or] 3 quarts of KEM TEK KEMKLOR II CHLORINATING LIQUID][or other EPA approved chlorinating liquid]] per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (Note: Do not enter the pool until chlorine residual drops to 3.0 ppm).
- 3) Add 10 oz. of this product per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool.
- 4) Filter continuously for 24 hours.
- 5) Remove dead algae by brushing and vacuuming as needed.
- 6) Add 5 oz. of this product per 10,000 gallons of pool water every two weeks as a maintenance dose.

[Directions for use: Alternate Formula Only:]

- 1) Adjust pH of pool water to 7.2-7.6. Use KEM TEK pH PLUS (soda ash) to raise pH and KEM TEK MURIATIC ACID [or muriatic acid] to lower it. Follow the instructions on the back panel of whichever product is used.
- 2) Add 1 pound of KEM TEK SHOCK QUICK [[or other EPA approved shock product] [, or 3 quarts of KEM TEK KEMKLOR II CHLORINATING LIQUID][or other EPA approved chlorinating liquid]] per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (Note: Do not enter the pool until chlorine residual drops to 3.0 ppm).
- 3) Using an algae brush, brush algae spots prior to product application. Add 10 oz. of this product per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool.
- 4) Filter continuously for 24 hours. Brush daily for the next few days if necessary to promote penetration of product into algae spots to improve effectiveness. Periodically check available chlorine and adjust if necessary to maintain a 3 ppm minimum during treatment.
- 5) Dead algae may be visible as a gray or white cloudiness. Living algae will have a green, brown, yellow or black color. If algae has color after 24 hours, repeat treatment as necessary for removal.
- 6) Once algae is dead, turn off filter system (including timer). Allow 18 to 24 hours for dead algae to settle to the bottom of the pool.

[In the text "this product" may be substituted for Algy Cop name and/or other alternate brand names]  
 [[Information in brackets [ ] is optional or instructional; italics in brackets indicate instructions not part of labeling.]  
 f:\KIK Pool Additives\7616-68\labels\2013\7616-68 notif label 092713.doc 9/27/13 Page 3 of 5

- 7) Remove dead algae by brushing and vacuuming as needed. Backwash the filter. Return filter system to normal operation.
- 8) Add 5 oz. of this product per 10,000 gallons of pool water every two weeks as a maintenance dose.

[Reader's Note: Throughout this label, product names for other similar products (i.e., pH adjusters, stabilizers, chlorinators etc.) may be substituted as appropriate. Other appropriate ounce products and corresponding gallons of water treated may be substituted on label. All oz. may be expressed as fl. oz. or oz.]

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: IF EMPTY: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. IF

PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**TO ESTIMATE POOL CAPACITY**

RECTANGULAR POOLS: Length x width x Average Depth (in feet) X 7.5 = gallons.

ROUND POOLS or OVAL POOLS: Average Diameter (length) x Average Diameter (width) x Average Depth (in feet) x 5.9 = gallons
